WADERS' PARADISE.

SANParks Honorary Rangers in conjunction with BirdLife SA invite you to the West Coast National Park Wader Bash. Here's your chance to experience the plethora of wader birdlife in the West Coast National Park, especially Langebaan Lagoon, an official RAMSAR site of international importance. Your team of four, accompanied by an experienced birding guide, will identify as many waders as possible in a 24 hour period. It promises to be a fun-filled weekend, with excellent bird watching, good food, camaraderie and gentle competition in beautiful surrounds.

The event starts with a briefing on Friday evening with the count starting at 17h45, finishing at 17h45 on Saturday afternoon. Prize giving will take place on Saturday evening at a special dinner. To round off the weekend, two prominent ornithologists will entertain you on Sunday morning. All levels of birding experience are catered for and all proceeds from this unforgettable weekend will go directly to projects identified by SANParks.
