***** IMPORTANT UPDATES *****

FLOCK TO MARION PAYMENTS

We are aware of people asking questions relating to payments and booking confirmations.

MSC Cruises has indicated that today a payment reminder will be sent to every booking on Flock to Marion. This payment reminder will have the final amount owing as well as a date on which payment is required.

MSC Cruises has kindly allowed final payment to be made by 17 November 2021.

No booking will be cancelled for non-payment before 16 November 2021.

Booking confirmations will be sent out to all guests by MSC Cruises early next week.

Seabird and Marine Mammal ID Courses

If you have not yet booked you can register up until 3pm (15:00 SAST) every Thursday.

If you missed Trevor Hardaker's session (Big Birds; Albatrosses and Giant Petrels) on Thursday 4th November 2021 you can still sign up and pay for a recording.

'Those who have registered and paid but missed the session due to load shedding or any other reason will be sent access to a recording a week later'

To register, kindly click [HERE](#).

Guide to Seabirds of Southern Africa, Peter Ryan

Seabirds hold a special place in the hearts of birders, not least because of the challenge of getting to grips with a group of birds that is largely inaccessible, and living in an often hostile habitat. *Guide to Seabirds of Southern Africa* is the first book focusing exclusively on the nearly 1,000 birds that occur around the southern African coastline and adjacent Southern Ocean.

Marine Mammals: A guide to the whales, dolphins and seals of Southern Africa and the Southern Ocean, Chris and Mathilde Stuart

This is an easy-to-use identification guide to the whales, dolphins and seals found in Southern African waters and the Southern Ocean, compact yet comprehensive. Close to 50 species occur in the region: from the demonstrative Humpback Whale and Dusky Dolphin to the striking Leopard Seal and massive Blue Whale.
